PROFILE

I am a passionate MERN Stack developer with expertise in React.js, Node.js. I thrive on creating visually stunning and user friendly interfaces. Skilled in leveraging design tools like Figma to bring designs to life.

EXPERIENCE

Associate Consultant – MERN Stack Development

Varchai private limited-bengaluru

March 2025 - Present

Develop and maintain scalable web applications using React.js, Node.js, Express.js, and MongoDB. Optimize frontend performance and enhance user experience by implementing efficient state management and UI/UX best practices.

- Build and integrate RESTful APIs and work with GraphQL for seamless data flow.
- Deploy and manage applications on AWS with CI/CD pipelines.

Junior MERN stack Developer

WizInoa, Madurai, Tamilnadu, India

Aug 2023 – Feb 2025

My responsibility here is to co-ordinate with the team and work on assigned tasks. I fully handled client side with responsive layout with functionality code setup with team & developing applications based on domains such as ERP Hrms applications and Custom build applications and sites.

- Learnt Nodejs with typescript and utilised it to delivery high
- quality applications

Frontend Developer(Trainee)

AAPGS Pvt Ltd, Tamilnadu, India.

Dec-2022 to Aug- 2023

I developed myself working here as a beginner. I committed myself to the development of the company's own product, ERP HRMS application.

- As a Frontend developer complete a assigned task in client side with functionality.
- Delivery a responsive and adaptive application.

EXTRA

16D Cargos - logistics Website

visit : <https://www.16dcargos.com/>

As a freelancer I developed static website for my client logistics business and hosted in aws by myself.
